About Us

We are one of the largest ceramic tile manufacturers in Brazil, certified by the Quality Management System (ABNT NBR ISO 9001:2015), and by product certification according to ABNT NBR ISO 13006:2020 and Inmetro Ordinance nº 676 of November 21, 2024, through CCB, a body accredited by Inmetro's General Coordination for Accreditation.

Founded in 1990 and located in Maracanaú – Ceará, we currently have a production capacity of over 40,000,000 m² per year, through a fully automated manufacturing process with state-of-the-art Italian technology.

Our presence in Brazil and in more than 30 countries consolidates a brand that for over three decades has focused on customer satisfaction, always offering the most modern solutions in our segment. All of this, combined with respect for our employees, partners, and a commitment to sustainable growth, has made CERBRAS a benchmark in the Brazilian and global ceramic market.

cerbras

Acerca de nosotros

Somos una de las mayores fábricas de pisos y revestimientos de Brasil, certificada en el Sistema de Gestión de Calidad por la norma ABNT NBR ISO 9001/2015, y en el producto, por la norma ABNT NBR ISO 13006/2020 y la Ordenanza Inmetro nº 676/2024 a través del CCB, organismo acreditado por la Coordinación General de Acreditación del Inmetro, lo que certifica su cumplimiento.

Fundada en 1990 e instalada en Maracanaú – Ceará, actualmente tiene una capacidad de producción de más de 40.000.000 m²/año, a través de un proceso fabril totalmente automatizado, con tecnología italiana de última generación.

Nuestra presencia en Brasil y en más de 30 países consolida una marca que desde hace 3 décadas se enfoca en la satisfacción de los clientes, ofreciendo siempre lo mejor y más moderno en nuestro segmento. Todo eso, combinado con el respeto por los colaboradores, los aliados y el crecimiento autosostenible, hacen que CERBRAS sea una referencia en el mercado cerámico brasileño y mundial.

SLIP RESISTANCE
RESISTENCIA AL DESLIZAMIENTO

RD1 Designed for covered, indoor areas with no accumulation of water.
Recomendado para ambientes interiores cubiertos donde no hay formación de láminas de agua.

RD2 Designed for covered, indoor areas with possible accumulation of water.
Recomendado para ambientes interiores cubiertos donde hay posibilidad de formación de láminas de agua.

RD3 Designed for indoor and outdoor areas with possible accumulation of water.
Recomendado para ambientes interiores y exteriores cubiertos donde hay posibilidad de formación de láminas de agua.

RD4 Designed for unroofed outdoor areas with possible accumulation of water.
Recomendado para ambientes exteriores sin cubierta donde hay posibilidad de formación de láminas de agua.

cerbras

CIRCULATION AREA
LUGAR DE CIRCULACIÓN

LT1

WALL | PARED

Designed for walls in general. | Recomendado para paredes en general.

LT2

LIGHT RESIDENTIAL | RESIDENCIAL LIGERA

Designed for LT1 and indoor residential areas with light traffic circulation without direct outdoor access (sidewalk/street). Recomendado para ambientes LT1 y residenciales internos con tráfico ligero sin acceso directo al exterior (aceras/calles).

LT3

MEDIUM RESIDENTIAL AND COMMERCIAL RESIDENCIAL Y COMERCIAL MEDIA

Designed for LT1, LT2 areas and residential/commercial areas with medium circulation without direct outdoor access (sidewalk/street). | Recomendado para ambientes LT1, LT2 y residenciales/comerciales con tráfico mediano sin acceso directo al exterior (aceras/calles).

LT4

HIGH RESIDENTIAL AND COMMERCIAL RESIDENCIAL Y COMERCIAL ALTO

Designed for LT1, LT2, LT3 areas and residential/commercial areas with high circulation, with direct outdoor access to (sidewalks/streets). | Recomendado para ambientes LT1, LT2, LT3 y áreas residenciales/comerciales con tráfico alto, con acceso directo al exterior (aceras/calles).

LT5*

HIGH RESIDENTIAL AND COMMERCIAL RESIDENCIAL Y COMERCIAL ALTO*

Designed for LT1, LT2, LT3, LT4 areas and residential/commercial areas with high circulation in more extreme conditions than LT4 and direct outdoor access (sidewalk/street). | Recomendado para ambientes LT1, LT2, LT3, LT4 y áreas residenciales/comerciales con tráfico alto en condiciones más severas que el LT4, con acceso directo al exterior (aceras/calles).

LTA*

VERY HIGH COMMERCIAL COMERCIAL MUY ALTO*

Designed for LT1, LT2, LT3, LT4, LT5 areas and residential/commercial areas with very high people circulation (airports, subways, supermarkets, etc.). Recomendado para ambientes LT1, LT2, LT3, LT4, LT5 y áreas residenciales/comerciales con tráfico muy alto de personas (aeropuertos, metros, supermercados, etc.).

DESIGN AND SHADE VARIATION
VARIACIÓN DE DISEÑO Y TONO

V1 

MINIMUM VARIATION:

Minimum variation in shade and design between tiles.
Variación mínima de tonalidad y diseño entre las piezas.

V2 

SLIGHT VARIATION:

Slight variation in shade and design between tiles. Ligera variación mínima de tonalidad y diseño entre las piezas.

V3 

MODERATE VARIATION:

Shade can vary considerably from tile to tile. In this way, one tile may not be the same as the other. In any case, the colors present in one tile are present in all the others. | La tonalidad puede variar considerablemente de una pieza a otra. De esta forma, una pieza puede no ser igual a la otra. De todos modos, los colores presentes en una única pieza están presentes en todas las demás.

V4 

HIGH VARIATION:

The same product has completely different tile colors, which after laid create a unique effect.
Un mismo producto tiene una diferencia de color total entre las piezas, que después de ser asentado crea un efecto único.
